Dear Editor-in-Chief,
Computer Methods and Programs in Biomedicine

Sub: Submission of Manuscript: Machine Learning-Driven Identification of Potential CCR5 Inhibitors from FooDB

We are pleased to submit our manuscript entitled “**Machine Learning-Driven Identification of Potential CCR5 Inhibitors from FooDB: Integrated XGBoost Screening, Molecular Docking, and Molecular Dynamics Simulation**” for consideration for publication in *Computer Methods and Programs in Biomedicine*.

We believe that this manuscript is well aligned with the scope of *Computer Methods and Programs in Biomedicine*, particularly its focus on computational methods and applications that contribute to biomedical research. The proposed workflow may be of interest to researchers working in **machine learning, cheminformatics, molecular modeling, computational drug discovery, and biomedical informatics**.

We confirm that this manuscript is original, has not been published previously, and is not currently under consideration for publication elsewhere. All authors have approved the manuscript and agree with its submission to *Computer Methods and Programs in Biomedicine*. Any potential conflicts of interest have been disclosed in the manuscript and submission materials.

Thank you for considering our manuscript for publication. We appreciate your time and consideration and look forward to hearing from you.

Prof. ESTARI MAMIDALA, Ph.D

On behalf of all authors
